ASHISH SINGH

Python Django Developer

 ashishsingh2b@gmail.com | LinkedIn | 8487840633 | Surat, Gujarat

SUMMARY

Motivated Python Django Developer with hands-on experience building scalable web applications, RESTful APIs, and AI-integrated systems. Proficient in Django, FastAPI, React.js, and full-stack development. Delivered production-grade projects across healthcare ERP, e-commerce, cybersecurity, and AI data platforms. Passionate about writing clean, maintainable code and contributing to high-impact collaborative development teams.

SKILLS

- **Backend:** Python, FastAPI, Django, Django REST Framework
- **Frontend:** React.js, Next.js, JavaScript, HTML, CSS (Bootstrap, jQuery)
- **Databases:** PostgreSQL, MySQL, Dynemo Db, SQLite,Pine cone
- **AI & Integrations:** OpenAI API, Speech-to-Text (STT), Text-to-Speech (TTS), Stripe, SendGrid
- **Cloud & DevOps:** Docker, DigitalOcean, Heroku, AWS (Basics)
- **Tools:** Git, GitHub
- **Soft Skills:** Problem-Solving, Team Collaboration, Client Communication

WORK EXPERIENCE

Globalia Soft LLP - *Python Django Developer* *April 2024 – Present*

- Develop, test, and maintain web applications using Python, Django, FastAPI, and Flask.
- Design and optimize RESTful APIs to improve system performance and efficiency across production environments.
- Integrate third-party APIs, payment gateways (Stripe, Apple Pay), and AI services into live applications.
- Collaborate in an Agile team with senior developers and designers, translating technical concepts into business value.

Positive Infotech - *Python Django Developer (Internship)* *Feb 2022 – May 2022*

- Built full-stack web features using Python/Django, REST APIs, and frontend technologies (HTML, CSS, JS).
- Gained hands-on experience in database schema design, API optimization, and application deployment workflows.

PROJECTS

RiverGen – AI Data & Model Management Platform – Live Link

Tech: FastAPI, React.js, PostgreSQL, Redis, Docker, Microservices, JWT Auth, AWS SageMaker

- Developed 100+ REST APIs for Model Studio covering full model lifecycle, versioning, dataset integration, and configuration.
- Built end-to-end ML training pipelines with dataset staging, AutoML workflows, and job orchestration.
- Implemented performance & evaluation APIs (accuracy, ROC, confusion matrix) and real-time monitoring for latency and drift.
- Designed Model Studio frontend (React) with dashboards, training UI, and metrics visualization components.
- Worked on microservices architecture with cross-service API communication; collaborated in Agile team (3x/week standups).

DentalNote AI – Dental Healthcare ERP System – Live Link

Tech: Django REST Framework, React.js, OpenAI API, PostgreSQL, Heroku, Multi-Tenant Architecture

- Built scalable Django REST backend and dynamic React.js frontend for real-time clinical interaction and documentation.
- Integrated AI-based Speech-to-Text (STT) and Text-to-Speech (TTS) for hands-free clinical note generation.
- Designed multi-tenant architecture enabling clinics to manage separate secure workspaces with data isolation.
- Integrated OpenAI APIs for intelligent note generation and automated clinical workflow processing.
- Implemented ERP-style modules including payment handling, role-based access control, alerts, and notifications.

Earthworm – Cybersecurity & Compliance Platform

Tech: Django, Celery, Redis, HTML, CSS, JavaScript, SSL, Agent-Based Architecture

- Built secure Django backend for managing compliance workflows and sensitive organizational security data.
- Implemented Celery + Redis async task processing for scheduled scans, automated reporting, and background jobs.
- Developed agent-based architecture with Windows & Ubuntu agents for remote monitoring across private networks.
- Built IP scanning, vulnerability detection, patch management, and automated security audit report generation modules.

Lootamo – E-Commerce Platform for Digital Products – Live Link

Tech: FastAPI, Next.js (React.js), PostgreSQL, Redis, Stripe, SendGrid, APScheduler, OAuth, DigitalOcean

- Developed scalable FastAPI backend with modular versioned APIs and high-performance SEO-friendly Next.js frontend.
- Integrated Stripe payment gateway with webhook handling, idempotent processing, and complete order lifecycle management.
- Built automated license key delivery (G2A API), OAuth login (Google & Facebook), and SendGrid email retry queues.
- Deployed on DigitalOcean with APScheduler product sync, admin dashboard, error logging, and full system observability.

EDUCATION

Pacific School Of Engineering, Surat *Aug 2018 – May 2022*
Bachelor of Engineering in Computer Science

Guru Krupa Vidhya Sankul *June 2015 – Mar 2017*
Higher Secondary Certificate (Science) | 66%

Gyan Sagar Vidhyalay *June 2014 – Mar 2015*
Secondary School Certificate

CERTIFICATIONS

- Certified Python Developer – Tops Technologies (June 2022 – November 2022)
- Diploma in Office Management – AS Computer Classes (March 2017 – August 2017)

ACHIEVEMENTS

- Delivered 4 production-grade projects across AI, healthcare ERP, e-commerce, and cybersecurity domains with live deployments.
- Successfully integrated OpenAI API, STT & TTS into a real-world healthcare ERP (DentalNote AI) deployed on Heroku.
- Built and launched a complete e-commerce platform (Lootamo) with live Stripe payments, license delivery, and OAuth login.
- Developed 100+ REST APIs for an enterprise AI platform (RiverGen) covering full ML model lifecycle and monitoring.
- Designed end-to-end agent-based cybersecurity system (Earthworm) with remote monitoring and automated compliance reporting.
